Spring 2006 State Meeting Ideas

Cosponsor with other groups, maybe Wisconsin SAF northern chapters, The Wildlife Society, Great Lake Forestry Alliance, Ruffed Grouse Society, Whitetail groups, others.

Possible topic: "The Only Good Deer is a Dead Deer" (might want to smith a less inflammatory title to avoid unnecessary opposition?). Look at the role of deer in forest ecology, tree predation, disease spread, elimination of T and E species, industry forest land sales to meet SFI regen requirements, etc. A nationally recognized speaker from Pennsylvania was suggested. Also, John Ozoga, Sand County Society, Jesse Randall, PhD dissertation.
