

HOW MUCH IS A CORD OF WOOD?

**HOW FAR WOULD A CORD PILE GO  
USING ALL THE WOOD THAT GROWS IN  
THE U.P. IN ONE YEAR?**

**3.7 MILLION  
CORDS OF WOOD  
GROW EACH YEAR  
IN THE U.P.**

**IF YOU CUT DOWN ALL THE TREES IN THE U.P.,  
AND MADE A CORD PILE OUT OF THEM, THE PILE  
WOULD GO AROUND THE WORLD 4.7 TIMES!**

**MICHIGAN HARVESTS  
A LOT OF WOOD EACH  
YEAR FOR MANY  
DIFFERENT PRODUCTS  
WE USE EVERY DAY.  
HOW FAR WOULD A  
CORD PILE STRETCH IF  
WE USED ONE YEAR'S  
WORTH OF WOOD?**
